# HAWAZ

## (Learning Management System)

HAWAZ is a ground breaking learning management system which is designed to aide organizations and professionals elevate the quality of their training deployment. The platform helps takes our client's training material from an offline mode to an online module, making it widely accessible and cost effective, and preventing duplication of efforts.

HAWAZ System has been trusted by human resource managers, sales managers and educators for the immense value it adds to online training and learning. Our exceptional customer support and technical expertise, make HAWAZ System an easy choice when it comes to choosing an LMS.

## WHAT ARE LEARNING MANAGEMENT SYSTEMS?

LMS are applications or software which help in delivery and end-to-end management of training content. It is used by corporates, professionals and educators to provide a standardized access to training that is supported by progress tracking features, assessment tools and capability to store performance of participants.

HAWAZ systems has been incorporated by numerous clients to help in their in-house training that caters to a large workforce. The content has ranged from human resource policies, technological & technical training, sales training, distributor training, partner training and more.

## **KEY FEATURES OF HAWAZ**

**Easy Data Migration:** Most clients we work with have a significant amount of data on their existing LMS or storage. HAWAZ supports a broad range of LMS structures and our expert team is capable of managing a flawless migration of data onto the new system.

**Brand Integration:** Unlike other learning management systems, HAWAZ does not follow a one-size fits all motto. We acknowledge the need to integrate our client's brand identity such as the logo, varied brand elements and design. Our system is customizable to incorporate the client's brand communication in order to elevate the learning experience for users.

**Social Media Support:** HAWAZ has updated social media plug-ins which help with introducing an element of community learning. It helps better learning for target learners who train better through discussions and sharing of resources. We help clients create & manage learning blogs, groups on socials platforms in a way that helps increase learner participation.

**Customizable Report:** The platform not only has pre-designed reports but also the capability to incorporate customizable reporting. We understand that training can be formal or informal and a standard report might not fulfil the needs of all kinds of training. Similarly, the difficulty of assessment could vary. HAWAZ allows clients to make changes to their evaluations accordingly.

**Intuitive User Interface:** The HAWAZ System is designed keeping in mind the cross section of users who would use the platform for their training needs. Hence the interface is easy to use, visually appealing and has customizable dashboards to ease learning.

**Gamification Capabilities:** The success rate of training platforms increases manifold if it has in-built capabilities to engage learners. HAWAZ has built in tools to enable gamification of training content that improves retentions and also delivers higher ROI.

**Peer to Peer Learning Tools:** Apart from social plug-ins, HAWAZ has the capability to support plug-ins that aide in collaboration among training participants without the need to engage external tools or the need to have a third-party human intervention.

**Personalized Learning Plans:** It is unlikely that most corporate learners begin training at the same time. Plus, their skill gaps vary, raising the requirement for personalized training that addresses specific training needs. HAWAZ incorporates this need and provides learners the capability to follow their own learning curve.

**Cross-Platform Accessibility:** HAWAZ can be accessed from a desktop, laptop, mobile or tablet. It is compliant with various operating systems i.e. Windows, iOS and Android.
