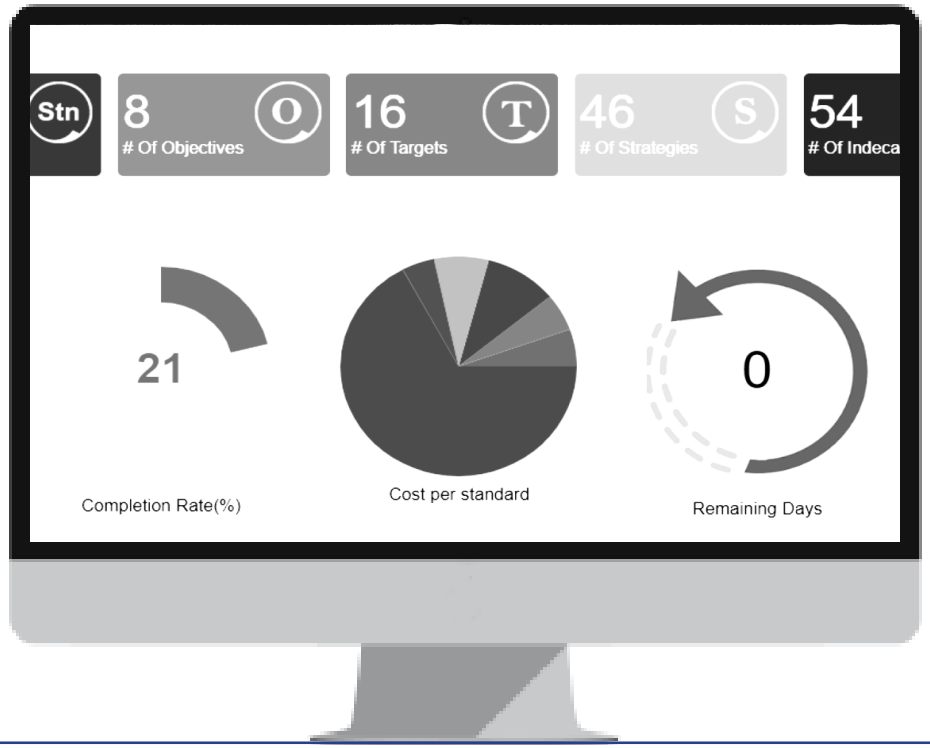
IMS

(Indicators Measurement Systems)



IMS (Indicators Measurement System) is our proprietary business information systems tool which also doubles up as a Planning Management System. IMS helps top & mid-level management perform in-depth analysis of the company's performance metrics as well set business goals for the future. The platform assists organizations make informed decisions which are supported by data-driven insights.

KEY FEATURES OF IMS

User Friendly Dashboard: The IMS dashboard is designed to cater to a host of users with varying skillsets and technological know-how. We understand that most business users do not have a technological background and we have thus designed IMS in a manner that makes the usage for such target users.

Standard & Customized Reports: IMS provides the capability for business users to access standardized reports as well as custom reports depending on their project. Many of our clients learn quick & easy functions that help them generate special reports for specific one-time tasks which are aimed at strategic planning.

Visually Captivating Charts: Graphs and custom charts help bring alive data and makes it easier for stake-holders to comprehend. IMS is armed with the capability to produce visually appealing charts and other data visualization tools.

Enterprise-Wide, Cross-Functional Applicability: IMS has the capability to collate databases from various functions- production, finance, marketing, sales and general management to produce a seamlessly integrated business information system.

Live Project Management: The platform provides functional heads to track important projects real-time and map the progress of the same. It gives a bird's eye view of the various bottle-necks, lead time, deadlines and more. The platform also gives an overview of billable time and actual time spent on a project by a personnel.

Monitoring Performance: Further, IMS helps team leaders monitor the performance of their team and helps record the same electronically. This assists in objective assessment of an employee's performance and hence aides a fair appraisal outcome.

Customizable Widgets : IMS is equipped with customizable widgets providing almost unlimited possibilities to track various KPIs.

Easy Integrations: IMS can be easily integrated with your current information systems, seamlessly so that there are no stoppages or work delays.

Selective Access: We understand that information is key in business today and IMS is geared towards providing maximized security. Clients have the option of providing selective access to its employees and also set permission requirements for certain accesses.

Seamless Merging of Data: Most organizations grapple with the issue of multiple databases and data sets. Introduction of a BIS system translates into restructuring date, ground up. However IMS assists in seamless merging of database without the need to go back to the drawing board.

MEMBERSHIP OPTIONS

Our team is more than happy to hand-hold clients through the various membership and on-boarding options. Our strength lies in truly understanding the needs of our clients and helping them

Depending on their organizational structure, clients can opt for a basic, advanced or a premium membership. Post this our team ensures a smooth induction, execution, training and customer support.

IMS has helped many of our clients re-define the way they approach data and helped them gain insights that have redefined their business. When it comes to critical databases, it is important to trust a platform that despite being cost-effective, is highly efficient. IMS is just that and more.
